

'HOG CALL'

The official NEWSLETTER of the Daytona Beach HOG Chapter

Volume 3

Edition 3

August 2020

A note from the Editor:

Where do I start? Oh my! What a year this has been, maybe we should all ask to rewind the calendar and start over. It has been one thing after another, and it all started with the dreaded Chinese Covid-19. Do we mask? Do we NOT mask? Testing – do we test? Do we skip the test? And what about the shut-down of the school systems and switch to outreach learning? Closing of industries and retail markets, bars, restaurants, outdoor events, veteran, fraternal & organization meetings canceled, sports of all types and so many other venues due to a microscopic 'bug' we all cannot see. The loss of income to meet those payments and put food on the table seems to be the worst of all for so many people right now. The stress of this and other factors in life are getting to many of us . . .

BUT! There's one thing that will remain ... You can count on your fellow 'HOG' member to be there for a buddy-call, chat, breakfast, lunch or nice dinner meet-up [**socially distanced naturally**] a **RIDE** just to clear your head or get those cobwebs out of the cylinders. You can also have a nice Ice Cream Evening Ride to your favorite dessert stop. It's all about the wants and need to get out and just **RIDE** to break-away from the doldrums and loneliness of just sitting home. IF there has been a need to get out and **RIDE**, and if you follow the HOG CHAPTER on the website, look at Chapter Facebook page and/or the Bruce Rossmeier H-D Dealership site you'll see there's been a variety of things, gatherings and events that you can attend [safely] that will help you stay in-touch, stay informed and "be there for you" if you have a need. **Just be safe out there!**

Richard 'STRETCH' Sawicki – Editor

Daytona Beach H.O.G. Executive Board

Message from the Chapter Director

Greetings fellow HOGS,

I am hoping this finds each of you doing as well as can be expected during these uncertain times. As I am writing this article, we are experiencing CoVid-19, riots, protests and a hurricane/tropical storm churning off our coast.

I would like to take a moment and express my condolences to those impacted by the loss of family or friends during this difficult time. We never know what is around that next turn so we must enjoy every minute of every day.

I expect that each of you are as anxious as the rest of us in getting back to normal whatever that may be. As a board we have to make decisions that are not always popular but what we feel is in the best interest of the Chapter as a whole. We will continue to follow State guidelines concerning group gatherings and remain committed to reconvening as soon as the situation allows.

I have fielded emails, texts and phone calls some have been complaints while others have been very supportive of the board's actions. As your board we are always here to listen to both the good and the bad. Please feel free to plan rides and get them on the calendar and remember, the journey can be greater than the destination.

Lastly, I want to announce that I will not be running for another term as Director. I have enjoyed the time I have spent on the board but it is time for new ideas and direction. I wanted to provide ample notice so those interested may come forward and start making inquiries. I remain committed to ensuring whoever steps into a leadership position will have a smooth transition. A nomination committee will be formed in September to move forward towards our November election.

Take care and be safe!

Enjoy the journey and ride safe.

Message from the Head Road Captain

Welcome back to your newsletter; it's been a pretty uneventful riding year and the heat normally reduces the number of rides on the calendar in August. Let's hope we can see a few more rides on the calendar soon. Speaking of the Heat please remember to hydrate and bring water with you, if possible. Drinking a couple of glasses of water in the morning before the ride will ensure you're hydrated, as it takes almost an hour for water to get into your system.

For anyone working on the Annual Museum Tour Challenge please note that quite a few of the Museums are closed, some permanently, That ok, just take a picture of the area with you and your bike and you will get credit for the location. Also, one of the Airport Museum has been moved inside the airport terminal at the Melbourne Airport. just take a picture of the airport sign, the correct address for the Air Force Space and Missile Museum is 100 Space Port Way, Port Canaveral, Cape Canaveral FL 32920. The name has been changed to the Sands Space History Center.

At a recent HOG Regional Officer's Conference, the topic of Trikes to Right was brought up for discussion again. This time our HOG representative weighed into the discussion and stated it is "HOG's Policy" not to tell anyone where they must ride in the group. So, going forward Road Captains will not require you to ride on the right. But we do prefer you all be on the same side of the group and prefer that side be the Right Side. This allows better visibility for the Lead RC to See his Tail RC. In any case we ride in a staggered formation and if you are following a trike whether on the right or left side of the formation, it is suggested by the Motorcycle Safety Foundation that you ride 2 seconds behind the trike, as you are both using the center/Number 2 position at all times. Ok, we have ridden this Iron Horse enough, it didn't win the Derby, Preakness or Belmont, so let's put it out to pasture with the final thought. Lead Road Captains like to be able to quickly see that the back of the group has been able to make the turn and get through the light. ***Please HELP US OUT.***

Thanks for your Help and Keep Riding

Woody Smith

For 2020 we have created a 5-year program called ***The Daytona HOG Annual Museum Tour Challenge***. In which we will visit Museums. If you complete 10 of the museums, you will receive the "Daytona HOG Annual Museum Tour Challenge" Patch and the Annual Tour Rocker.

How do you get the patch, rocker and other rewards? Take a picture with you & your bike in front of the Museum or it's Sign, Email the Picture with your name and the Museum name to: Activities@daytonahog.com. When you send in the 10th picture you'll get the patch and rocker, 20th picture and you will earn _____, so send in pictures for all the Museums that are listed in the current 2020 year's Tour Challenge program and you'll earn _____.

We are in the process of finalizing the 2020 Rewards that will be given for completing 20 Museum Rides and the entire list of Museums in the state of Florida for the 2020 year. PLEASE . . . Stay Tuned . . .

PLEASE REMEMBER

This is YOUR HOG Newsletter - you can submit your vacation pictures, activities you are involved with, a favorite RIDE, or a Ride Destination location for good food and fun with fellow Hogs . . . Whatever ! ! !

Daytona Beach HOG Annual Museum Tour Challenge

To get the patch and rocker, complete 10 of the tours for each year.

2020 – Transportation Museums

2021 – Art Museums

2022 – Military and Maritime Museums

2023 – Historic Homes

2024 – Florida History Museums

This will end the challenge. Here's a cool element of this challenge. If you only get 9 of the Transportation Museums in 2020; but in 2024 you just happen to be riding by the 10th museum, stop take a picture and as long as we still have patches and rockers you will get yours.

Michael O'Toole
Safety Director

Message from the Safety Officer

Mike "Doc" O'Toole

As the new Safety Officer for the Daytona HOG Chapter, I thought it appropriate to introduce myself....a bit. My wife and I live in Ormond Beach and I work at Embry-Riddle as a Professor of Aerospace and Occupational Safety. I am not a rocket scientist! I have over 40 years of safety and health experience in the mining, manufacturing, paper and construction industries. I hope to share practical information with the membership so we all can continue to enjoy the freedom of the road. If there is a safety related topic you want to hear about, drop me a line or catch me at a meeting.

For my first article, I want to address what I think is a safety critical and often neglected issue of your motorcycle's tires. Never underestimate the importance of having good, properly inflated tires on your motorcycle. The small contact patches provided by the front and rear tires are the motorcycle's only source of traction. Deterioration of your tires' condition can jeopardize this contact patch and bring a good ride to a quick end. Safe riding depends on selecting the right tires, inspecting and maintaining them, and replacing them as necessary.

SAFETY OFFICER (contd.)

It's all about ***inflation, inflation, inflation***. Proper air pressure is critical for tire performance and tire life. Under-inflation or overloading can cause sluggish handling, heavy steering, and internal damage due to over-flexing, and can cause the tire to separate from the rim. Over-inflation can reduce the contact area (and therefore available traction), and can make the motorcycle react harshly to bumps.

Check the air pressure when the tires are cold (at least three hours since the last ride), as part of your pre-ride "T-CLOCS" inspection (T- CLOCS means **T**ires and wheels, **C**ontrols, **L**ights, **O**il, and **S**tands), and adjust according to your motorcycle's owner's manual or the tire information label on the chain guard, frame or swingarm. There may be two sets of recommendations for tire pressure (as well as suspension settings): one for solo riding and one for riding with a passenger and/or cargo. Do not exceed the maximum inflation pressure listed on the tire's sidewall. And never exceed the motorcycle's or tire's load limit (combined weight of operator, passenger, cargo, and accessories), since that can result in tire failure.

Ask yourself, when is the last time I checked my tire pressure?? Some of us can easily forget to check tire pressure because it never seems to vary!! Regardless of your riding experience, air pressure checks at least once a week and before long trips, including a visual inspection tires before each ride will help to avoid potentially serious consequences.

Regular inspection of the tire tread depth to ensure that adequate tread remains is also essential for safe riding. Tires have small wear bars molded into the tread grooves; when the tread is worn down to the level of the wear bars (indicating 1/32 inches of tread remaining), the wear bars become exposed and the tire should be replaced. Some manufacturers recommend replacing the tire when there are 2/32 or 3/32 inches of tread remaining.

Although it may look like there is a sufficient amount, it may not be enough to maintain traction in wet conditions. The deep grooves in fresh tires help channel water away from the contact patch, and worn tires are thinner and easier to puncture. For a quick check, if you insert a penny into a groove in the center of your tire, 2/32 of an inch is right at the top of Lincoln's head.

SAFETY OFFICER (contd.)

In addition to tread depth, glance over the tires' surface for any evidence of uneven wear, cuts, embedded objects, bulges, or sidewall cracking.

Every time you ride, the tires go through a "heat cycle" as they go from ambient to operating temperature and back down again. Each successive heat cycle slowly hardens the tire. Similarly, as tires age, chemical reactions cause the rubber to harden, even during nonuse. Whether through heat cycles or aging, the tire's surface becomes less spongy and less able to interlock with the protrusions and pores in the road surface. (If you have an old tire and a new tire, you can press your fingernail into the surfaces of each to see the difference in how they react.)

Tires can also absorb petroleum-based fluids from the road, which can further deteriorate the rubber. So, tires eventually have to be replaced, even if they have plenty of tread left. And don't take a chance on buying used tires; you don't know how many heat cycles they've gone through. This also means that when you buy a used motorcycle, you should thoroughly inspect the tires, and replace them if their condition is questionable.

If you'll be storing your motorcycle for more than a month, and it has a center stand, set the bike on its center stand to raise the rear tire off the ground and use blocks under the frame to lift the front tire slightly off the ground. If it doesn't have a center stand, periodically roll the bike forward or backward a few inches so the tires don't develop flat spots in the tread.

Whether you have two or three tires, you depend on them to get you down the road. Take care of them and they'll return the favor! Ride safe!

Safety Officer Report

H-D Tire Sale

Planning that road trip, RIDE, week-end get-a-way or just having a 'Stay-cation' around home . . .

See the staff at the H-D Service Department for a great deal on motorcycle tires It's an '*AT COST*' sale and when their gone – Their Gone!

Message from L.O.H. Director

Hi everyone,

Hopefully, everyone stayed safe and now is venturing out enjoying life as much as you can. During the beginning months when we couldn't add rides to our calendar, we did FB picnic bag lunches and we also did HOG sponsor rides to try to help out our local businesses and nice to see on FaceBook a few HOG'gers went out and supported them as well. Once we were able to put rides on the calendar, we added a few rides. We were happy to see our friends and had seen some that went into hibernation due to this Covid.

As you know that we are still not able to hold our HOG Chapter meeting at Houligans until they are 100% capacity. LOH are not able to use our meeting there also. Helen, GM of Colt's Pig Stand was gracious to open their room in the back for us to hold our first meeting. Social Distancing was practiced.

We will meet there until we can go back to our home base, or if you like, remain there. We can all vote on that if you wish.

For any Lady that is interested in joining LOH. Here is a little information about us. We are HOG Ladies of Harley which is a program by HOG to support women motorcycles enthusiasts that both rides their own or are passenger. More in-depth information on our webpage on how to join LOH. **We get together the 2nd Thursday of every month for our Ladies of Harley Dinner meeting that runs from 6 – 8pm.** We talk about all sorts of interesting ventures mainly fun things we like to do incorporating with a ride, paint night, and crafts, a ride to nowhere is always the fun one. At times our husbands take along to the meeting and they sit in the dining area doing their male bonding thing while we have our meeting. Once our meeting is over, we have fun joining them.

All Hog Chapter member are welcomed to any of our rides, but not to confuse anyone I will not include it as a LOH Ride only to any of our rides. Some got confused thinking that it was only for LOH. Our rides also include those who only have 4 wheels.

Here, on the following calendar, are some rides we are beginning to put on the calendar and hopefully some of the LOH will come to the meeting with a few more.

No matter is you ride 2, 3, or 4, You can always welcome through our doors.

Stay Amazing
Marjie

MEETING & EVENTS CALENDAR

~~L.O.H. Meetings are held at HOULIGAN's Sports Pub at Destination Daytona~~
~~Social hour is 6:00 p.m. to 7:00 p.m. — LOH Meeting starts promptly at 7:00 p.m.~~

Message from the Activities Director

Activities

The Activities Committee remains optimistic the remaining events for this year will occur!! The committee consists of Gail Smith, Bernadette Courtright, Marjie DeRose, and Mary Abbot. Thank you 'ladies' for your assistance in planning these events!!

- **Fall Picnic** is still scheduled for **Sat, Sep 26 from 11:30 - 2:30 p.m.** The picnic is FREE to all Daytona HOG members! That's right, FREE, but you must RSVP. Members can bring a guest, cost is \$10 per guest, paid at the picnic. Colt's Pig Stand will be catering (chicken & pulled pork w/sides) and musician Ed Wolford will return for your listening pleasure. If you signed-up for the Spring Picnic that was canceled, we still have your \$5 and it will be returned to you at the Fall Picnic or the next time we see you. **If you plan to attend the Fall Picnic, you must RSVP** so we can get a head count for the food. Email activities@daytonahog.com and provide your first & last name/s in the email; also let us know if you are bringing a guest.
- **Christmas Party** is still scheduled for **Sat, Dec 12 from 6 - 10 p.m.** The theme this year is Roaring 20's so come dressed in your favorite 20's attire or any attire, just come clothed. The party will be held at Halifax Plantation Clubhouse again and the menu selection will include Prime Rib (very popular last year), along with a Chicken and a Fish option. We have the "5 O'Clock Charlie" Band scheduled to play this year and of course there will be door prizes and awards. We hope to start selling tickets no later than September, so watch for more info to come.

Ride safe and stay healthy, hope to see you all again soon!

Gail Smith
Activities Director

See your H-D Dealership for a great deal on all motorcycles & accessories

Message from the H-D Dealership

After a very successful Bike Week, 2020 threw all of us an unexpected curveball in the form of Covid-19. Our Team here at Bruce Rossmeier's Daytona Harley-Davidson swung into immediate action following CDC guidelines incorporating hand sanitizing stations throughout the store and placing Social Distancing Signs for the safety of both our customers and associates.

In April, we closed all our showrooms remaining open only as an "essential" business providing motorcycle maintenance, curbside delivery for parts and accessories and conducting private by-appointment-only Bike Viewings.

In Mid-May - our showrooms re-opened with shortened hours, strict social distancing requirements and an enforced daily policy of temperature checking associates upon entering the building for work.

Since June, we've resumed normal business hours and are still doing everything in our power following guidelines set by the CDC, and our national, state and local governments, asking you to wear masks and continue to practice social distancing.

In August, we are also providing the Bruce Rossmeier Experience you all know and love, staging "safe" events both indoor and outdoor for our local customers like our swap meets, workshops and Bike Shows, while offering amazing promotions like our Current Tires at Cost Sale and Double Rossmeier Rewards every Weekday.

In September, on the 5th, we are giving away Three Bikes featuring the Grand Prize of a New 2020 Electric LiveWire.

Simply come in to our showroom and enter to win daily now thru September 5th, with no purchase necessary.

We are excited to host our Third [3rd] Annual Trikefest Sept. 15th-18th; the 26th Annual Bruce Rossmeier Ride For Children on October 4th and the 28th Annual Biketoberfest Oct. 15-18th. Through Good Times and Bad Times, we want you to remember that "We Are All On This Ride Together."

So Let's Ride!!!

Harley-Davidson Research and Development

Variable Valve Timing Patents Could Bring the Harley-Davidson V-Twin In to This Century

Provided by The Drive COVID-19 has been unkind to even the healthiest of businesses, but to already-troubled companies like the storied Harley-Davidson, the pandemic came as an unwelcome wildcard. Before production halted in March, plans for a portfolio overhaul became apparent, and as part of this agenda, Harley might introduce a new generation of V-twin engines if newly uncovered patent filings indicate anything. With its dated lineup and aging primary customer base, Harley must adapt or face the gallows, and to its credit, it isn't exactly twiddling its thumbs.

Documents dug up and published by **Motorcycle** show that Harley-Davidson has officially filed for a patent for a modular engine balancer, designed to fit either end of a V-twin's crankshaft. The drawings' & accompanying descriptions mention the inclusion of a variable valve timing (VVT) phase timing module, which would be an unnecessary accommodation if no such system were in consideration. **While VVT is typically used to increase power across an engine's rev range,** Harley could instead use the system to reduce emissions, which have long been a thorn in the side of the beloved-yet-beleaguered bike manufacturer.

This will be an on-going article[s] insert as news come out from the Harley-Davidson Motor Corporation regarding new engineering and design ideas that may influence all who own and ride a H-D motorcycle.

Message from the Membership Chairman

Membership renewals are going well . . .

Some February statistics for your reading pleasure. Currently, we have 225 members (02/10/20). Of that, 114 have renewed plus 14 new members for a total of 128 for 2020. After the February meeting, those that haven't renewed will be purged from the active rolls. We always will welcome you back.

I have some ideas going forward to modernize, automate, and streamline the membership process. Still requires the Boards blessing. Stay tuned for further developments.

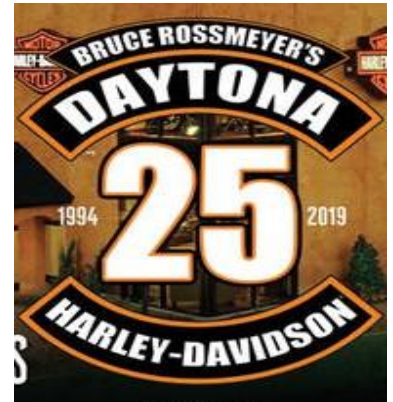

Remember, your **membership with the Daytona HOG Chapter** requires you to have an active membership with **Harley-Davidson National HOG**. Please make sure you renew your expiring membership with the HOG Chapter and/or HOG National Organization if applicable.

When you mail in application/renewal

please DO NOT staple your check or cash to the application.

Two hours a month..... yea right!

The 'RIDE 365' Program

RIDE 365

New in 2020, qualifying H.O.G. members now earn one point on their Harley-Davidson VISA card for every mile you ride on your H-D Motorcycle, up to 50,000 miles in a calendar year. That is up to \$500 in H-D Gift Cards from the Motor Company!

HARLEY-OWNERS GROUP *RIDE 365*

How will my mileage be tracked?

You must have your odometer mileage validated at your H-D Dealership at the beginning of the calendar year. After that, you can return to the dealership throughout the year to add to your total annual mileage.

Can I enter mileage myself?

To maintain the integrity of the program, mileage must be read and entered at an authorized Harley-Davidson Dealership.

Can H.O.G.® members start the program at any time during the year?

Yes. You may check-in your mileage at any time during the year. The annual program recognizes miles ridden from January 1 through December 31, so it's smart to check-in mileage at the beginning of the year.

How many times each year do H.O.G.® members have to check-in their mileage?

You need only to have your odometer checked in two times each year at the dealership – the first time to validate miles on or after January 1, and the second time is for a final annual total on or before December 31.

However, you'll want to check in with your dealership frequently to enter your updated miles so you can earn digital badges and add to your annual and chapter totals throughout the year. Adding your mileage will instantly update the H-D.com/hog website and your chapter totals.

What are the individual levels, rewards and recognition offered in the Ride 365 Annual Recognition program?

- 1,000 miles: Digital badge
- 2,500 miles: Digital badge
- 5,000 miles: Digital certificate & digital badge
- 7,500 miles: Digital certificate & digital badge
- 10,000 miles: Digital badge, certificate & patch
- 15,000 miles: Digital badge, certificate & patch
- 20,000 miles: Digital badge, certificate & patch
- 25,000 miles: Digital badge, certificate, patch & Challenge Coin
- 50,000 miles: Digital badge, certificate, patch & Challenge Coin
- 75,000 miles: Digital badge, certificate, patch & Challenge Coin
- 100,000 miles: Digital badge, certificate, patch & Challenge Coin

Let's head to Wyoming & Utah

GRAND TETON

NATIONAL PARK

Grand Teton is the highest mountain
in Grand Teton National Park, in
Northwest Wyoming.

If your looking for a destination to travel to, riding out to Jackson Hole, Wyoming is a great location to stop by for a spell. This town is great for the sights and sounds of the old west. North of town, when you come out from a small ridge of hills on your left you begin to see the full range of the Grand Tetons in all its splendor. Traveling a short distance further you can make a left turn into the entrance for Grand Tetons National Park. After going thru the gate, you'll follow the route north along the Teton mountains [to your left] and travel by Jenny Lake and other smaller bodies of water. This will lead you into the entrance to the Yellowstone National Park [another gate] and there you can spend days exploring the many wonders and wildlife of this park. This is a great area for motorcycle riding, and it's an experience when, on a motorcycle, you come across a heard of buffalo or some elk roaming along one of the many roads throughout the Yellowstone National Park.

PLEASE SUPPORT OUR 2020 SPONSORS

This year, same as last, there has been a change-up in the way we will be supporting all of our sponsors who gladly buy-in to our newsletter advertisements, as you see in the following pages.

We, Jackie & Randy Port, have solicited those same vendors, as well as new ones, to advertise in our Daytona Beach HOG Newsletter. They have done so graciously, with a 'buy-in' to the

VENDOR SUPPORT PAGES

PLEASE, support those who support your great Daytona Beach HOG Chapter
**REMEMBER YOU CAN SUPPORT EACH and ANY VENDOR
.... ANY TIME, ANY DAY and LET THEM KNOW YOU ARE
THERE TO SUPPORT THEIR BUSINESS AS A 'HOG'**

Thank You . . . Jackie & Randy Port

Greetings from the Sponsorship program!! I hope that everyone has been staying safe and that all of you are well.

It has certainly been a trying few months to say the least we hope that all this craziness will be over sooner rather than later.

We just want to say thank you to all our sponsors that have supported us during this pandemic and to all our members who have supported our sponsors. Even though we are not traveling in groups or have as many rides as prior, it would be great if when you visited one of our sponsors you let them know how much we appreciate them for supporting us and for making sure that we are all safe.

When this world returns to some semblance of "normal" and as businesses recover from this pandemic that they will continue to support us and we them.

Until we meet again, stay safe be well and I hope all your adventures are wonderful!

*Thanks,
Jackie & Randy Port*

There will be a *Monthly Ceremony* presented by our own *Chapter Chaplain Ron Cain*.
After the end of each *HOG Monthly Meeting*, just outside the back doors of the facility.
Ron & Carley will be doing the *Bike Blessings* in the parking lot east of the building.
*This is MONTHLY ** ... PLEASE see Chaplain Ron Cain*

*** This service has been suspended until we all can meet, again, as the
Daytona Beach HOG Chapter*

Message from the Chapter Chaplain

Our Beloved Hog Members,

We have been experiencing a degradation in lifestyle and healthcare challenges that this nation has not seen since 1917 with the viral epidemics of that age. We know that as Harley Riders, we all love the FREEDOM of the open road and riding with friends that we all have been missing for the past several months.

Carley and I have been praying that we all, including all of your immediate and expanded families, would get through this ordeal unscathed. Please know that we are available. If you have any prayer concerns or spiritual needs. Please feel free to contact us at 386-589-4448 or 386-589-4178

We will be excited when there will be a re-opening of the HOG Chapter Meetings, and we look forward to seeing, meeting and greeting you all there.

God Bless You !
Love, Ron & Carley Cain

It's not too early to start thinking about our annual RIDE for Camp Boggy Creek.

This RIDE, planned for the October 04th 2020 time-frame will be the 26th year that Bruce Rossmeyer's Harley-Davidson is sponsoring this RIDE and destination to Camp Boggy Creek . . . Remember 'It's all about the kids'!

Further information will be made known as the year progresses

NOTICE OF CHANGE TO CREDIT CARD OPERATIONS

As you maybe aware of, the chapter takes credit/debit cards as payment for Quartermaster Merchandise, Annual Chapter Membership and Christmas Party payment. Currently the convenience fee to use your card is 3%. This fee will be increasing to 3½% on November 1st. This change is due to Square's fee structure.
